Dear Parents

Warm greetings to you!!!

**NPSI Mysore is now ten years old,
In this temple of knowledge, a decade unfolds,
Brick by brick, a strong foundation laid,
In this learning hub, cherishable memories are made.
Learners empowered and eager minds take flight,
Holistic development for futures bright
Playgrounds witness joyous cheers
A decade's tale, etched in the years
So here's to the milestones, to growth and progress
To many more years of partnership, achievements and success.
A decade's journey, a noteworthy tale to tell,
In the sands of time, where memories dwell.**

As we look back on the academic year 2023-24, it gives me immense pleasure to report that we have had a successful and fulfilling one, with noteworthy milestones of progress and success. Having completed a glorious decade, we are refueled with confidence and enthusiasm to surge ahead and explore new domains of innovative education for students' benefit. The journey until now, has been like sailing on the sea- sometimes navigating through the calm, at times braving the storms but steadily riding the waves to reach new horizons of success. One thing that has remained constant, is the learnings gained during each phase of the voyage.

NPSI strives to empower learners with life skills, preparing them to face all challenges with grit, confidence and perseverance. The theme of academic year 2023-24 was awareness through information empowerment. Since it was the 10th year, each class picked up the "top 10" in various fields as the theme for class décor. A tour through the classrooms would enlighten one with the top 10 in animation, crops of India, festivals of India, folk dances, epics, endangered animals, games originated in India, dynasties, defence cadres, tourist destinations, currencies, civilizations, awards, entrepreneurs, start-ups and innovations.

In the year gone by, we have witnessed numerous feats, achievements, success stories, challenges and have learned myriad lessons from interactions and experiences. This will be revealed as you flip through the pages of this yearly journal.

LOOKING FORWARD TO THE ELEVENTH YEAR....

The year gone by has been a fruitful one. The staff squad at NPSI Mysore braced up to challenges of change, embraced success with humility and witnessed many moments of unity and resilience. Together, we emerged triumphant, in various quarters. Every achievement is always inspired by a team of experts and mentors. I wish to express eternal gratitude to the Board of Governors, my mentors, for their constant support in every endeavor of ours. It is overwhelming to see the parent fraternity and the student community, stand by us at all times. The constant communication and feedback, received from stakeholders, has helped us to chalk out our future track. Our effort will always be directed towards improvement so that we continue to bring the best to all our patrons, at all times.

TO SUM UP....

*"Achievers are those who have redefined impossible, changing *what can't be done* into a work in progress."*

— Richelle E. Goodrich

I am a firm believer of the above quote and have faith that a positive mindset and a strong will power are the vital ingredients of success. When discipline and dedication are combined with values of gratitude, humility, empathy and care, there's no limit to what we can achieve. We continue to give it our best, in all our endeavours, so that perfection and excellence become a habit. My vision for 2024-25 is to create a resource pool of leaders and mentors, both, amongst students and teachers, who will be the ideal role models, striving to make a positive impact to the world around us. I look forward to continued collaboration with stakeholders for a successful academic year ahead.
